County Line

Everybody thought little Jimmy was so cunning. Whenever he was offered the choice between a nickel and a dime he always chose the nickel. After this had gone on for weeks somebody very kindly explained to him that a dime was worth twice as much as a nickel.

"But if I took the dime," Jimmy said, "nobody would try me, and I wouldn't even get the nickel."

Human beings are naturally curious about affairs that do not concern them.

Freedom of speech is a valuable possession of every man, but it is a foolish individual who speaks too freely.

The people who smile often have more friends that the people who frown.

When a person tells you that "the money doesn't matter," keep your eyes open wider than usual.

It is astonishing how many wise words of smart men have been forgotten by the so-called human race.

As we have said before, trading at home is one way to keep some money circulating here.

This Gold Medallion outside means cozier living inside!

A Gold Medallion Home provides two kinds of comfort. First, the supremely modern comfort of all-electric living that includes 100% clean, safe, silent, automatic Electric Heat. Second, the comfort of knowing your home will *stay* modern to protect your investment for years and years to come.

ELECTRIC HEATING . . . from an Electric Heat Pump . . . or from ceiling cable, wall panels, or baseboard. It gives wall-to-wall comfort as clean as electric light. And it operates year after year with no attention from you. Yet with VEPCO'S new low home heating rate, Electric Heat now costs no more to install and enjoy than less modern heating systems.

ALL-ELECTRIC KITCHEN AND LAUNDRY . . . world's cleanest, coolest, most automatic. Includes electric hot water . . . usually from a new Quick-Recovery Electric Water Heater.

PLANNED LIGHT FOR LIVING brings new night beauty to the home . . . guards the family with lighted stairs and halls . . . provides lighted work areas . . . and closets.

FULL MODERN HOUSEPOWER . . . with at least a 150-ampere Electric Entry Box, and plenty of heavy duty and regular house circuits, switches and outlets for all lights and appliances.
